8.2 Reimbursement will apply to concessionary journeys, undertaken with a valid English National Concessionary Travel Pass, starting within the City boundary.

8.3 This involves a need to compensate for revenue foregone considering any generated trips and to provide sufficient capacity such that all those wishing to travel (both concessionary and non-concessionary passengers) may do so.

8.4 The actual number of journeys made by ENCTS pass holders under a free travel Scheme will be monitored so the amount of reimbursement paid to operators under the Scheme can be reviewed on an annual basis to ensure that payments reflect the objective that operators should be no better or worse off because of the Scheme. Hull City Council commits itself, in co-operation with participating operators, to review the Scheme on an annual basis. Such a review will have to anticipate statutory notification / publication timescales.

8.5 Operators will be reimbursed applying the Department for Transport's (DfT) Reimbursement Calculator and its associated guidance and methodologies as the basis for estimating the reimbursement for the 2025-26 Scheme year. 8.7 The reimbursement will apply for the full financial year, from 1 April 2025 to 31 March 2026. The payment level will not vary in response to any changes in commercial fare levels.

8.8 In the case of new operators joining the concessionary scheme, the City Council will determine the appropriate payment per trip in line with the no-better-no-worse objective. This will involve an estimate of the reimbursement using the DfT calculator, guidance and preferred methodologies contained within.

9. Sales Returns

11.3 The Hull City Council may gather any information required from concessions passengers but shall restrict information gathered from non-concessions passengers to the number of passengers, their journeys and fares paid.

11.4 The Hull City Council may require data on overall fare revenue and patronage on journeys within the Scheme and reserves the right to commission independent checks as to the accuracy of any data supplied. Such data will be treated in confidence.

11.5 The Hull City Council will continue to work with Operators who are utilising smart ticketing and ITSO functionality to process concessionary bus pass transactions during 2025-26 and beyond to agree specific details on the required process and format for the transfer of data.

12. Exception of Reimbursement Methods

14. Variations to the Scheme by the Council

14.1 The Hull City Council reserves the right to make any variations to the Scheme provided that such variations will be published at least 4 calendar months before implementation, as required by the Eligibility Act 2002.

14.2 Enhancements to the Scheme can be made using powers of the Transport Act 1985. In such cases the Council will give an operator to whom any such period of notice applies at least 28 days warning.
